

Self-Inspection Check List for 2010

As per the video, be sure that the following are done

1. Exit signs... Be sure all light bulbs are working...
2. All emergency lighting works when you press the test button...
3. Eye wash station... works freely, not hard to activate...
4. Be sure all doors are labeled... closest, storage, employees only...
5. Fire extinguishers... mounted, charged and tagged...
6. Be sure your monthly inspection sheet is posted and checked...
7. Be sure you have your OSHA poster... (free from my web-site)...
8. Evacuation diagram posted...
9. Compressed gas tanks secured...
10. Have one set of current state labor law posters, displayed...
11. Be sure all employees can locate your OSHA binder...
12. Be sure your sharps containers are not over filled.
